2017 Datasheet

The available curriculum is as listed below. Besides the listed courses we are more than happy to provide tailor made training courses. Tailor made courses require a Training Needs Analysis (TNA) in which the wishes and needs are translated into a dedicated training plan. A TNA is also required for familiarisation training of crews on board new ships.

SPECIAL NAVIGATION & PROCEDURES

- Navigation and high speed manoeuvres in confined waters
- Navigation in close quarters

BRIDGE HANDLING & RESOURCE MANAGEMENT

BRIDGE/CIC TRAINING

- Ship manoeuvring in bad weather
- Evasive manoeuvring
- Safety procedures general
- Safety procedures with anti-piracy teams on board
- Detection ranges of all sensors and lookouts
- Team-performance

MACHINE CONTROL ROOM (MCR) TRAINING

- Command team training
- Machinery Breakdown Drills (MBD)
- DC & FF training (Damage control/Fire fighting)
- Basic DC&FF training for Fire Attack Parties
- Advanced DC training for officers/command team
